Living With Sports

**VISportsClub™** is a complete web-enabled solution for sports associations, local clubs and teams. This comprehensive tool features programs to handle processes from player registration to scheduling of games, player and coach assignment, tournament planning and scoring and statistics management. In addition, the communication tools allow for two-way interaction, and a tournament module that facilitates on-line signups and payments. Your **VISportsClub™** solution reduces manual work amongst administrators to recruit players efficiently and effectively manage their local clubs or Affiliates. We pride ourselves on the quality of our products and customer services.

**VISportsClub™** is one of QC Technologies Inc.'s (QCTI) suite of products to help integrate sports organizations and communities. Since 1991, the founding team at QCTI has developed and launched popular Internet and Information Technologies solutions from servicing residential communities to multinational corporations and financial institutions.

### Major Benefits of VISportsClub™:

- ☑ **Endorsed by and implemented at Baseball Ontario (OBA)**

**VISportsClub™ offers a complete suite of sports club web site solutions. The major features include:**

- Customizable web portal, and self-managed content
- Team & Player profiles, and history
- Communication amongst locals, affiliates, players, coaches, umpires, volunteers, parents, and friends
- Player, Team, League, Tournament management
- Calendar, Event Announcements
- Online registration and forms
- Photo gallery, Multi-Media centre
- Message boards and discussion forums
- e-Blast Newsletters
- Broadcast messaging for urgent announcements
- Sponsorship Recognition

### Web Site for Affiliate, Local/Club, Team

The individual web portal promotes and brands the characteristics of the organization. Content and Communication management can easily be achieved by using the above-mentioned features designed specifically for baseball communities. Teams can be linked within Affiliates to share information while the data is secured within the portal of each Local/Club organization.

### Games Scheduling, Scoring and Standing

Each Affiliate or Team can publish schedules, practices, games and tournaments as public or private-view based on the intention of the message. Team scoring can be posted after each game for the members, parents and volunteers. The tournament module allows on-line signups and payments. The standing will be automatically calculated and posted on the website.

### Online Player Registration and Payment

The online player registration allows parents or players to register and pay the fee by credit card as an alternate option to sending a cheque. The Local registrar approves the application and acknowledges the payment. Each Local has the flexibility to define their own fee structure. Re-registration is made easy based on existing player profile.

### Team Management and Player Assignment

The registered player is approved by the local club registrar and assigned to a team based on the rules of the association. The existing players will automatically be rolled-over based on their age group from the previous years. Team rosters can be viewed online or printed prior to scheduled games. Automated REP team submission and approval.
